Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Airline and Traveler Information Collection: Domestic Manifests and the Passenger Locator Form (42 CFR parts 70 and 71) to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on November 4, 2019 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and
- (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street, NW,

Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Airline and Traveler Information Collection: Domestic Manifests and the Passenger Locator Form (OMB Control No. 0920-1181, Exp. 05/31/2020) - Revision - Division of Global Migration and Quarantine (DGMQ), National Center for Emerging Zoonotic and Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Stopping a communicable disease outbreak - whether it is naturally occurring or intentionally caused - requires the use of the most rapid and effective public health tools available. Basic public health practices, such as collaborating with airlines in the identification and notification of potentially exposed contacts, are critical tools in the fight against the introduction, transmission, and spread of communicable diseases in the United States.

The collection of timely, accurate, and complete contact information enables Quarantine Public Health Officers in CDC's Division of Global Migration and Quarantine (DGMQ) to notify state and local health departments in order for them to make contact with individuals who may have been exposed to a contagious person during travel and identify appropriate next

steps. In order to collect this contact information, aka a manifest, CDC is seeking approval for domestic airline and traveler information orders under current authorities in 42 Code of Federal Regulations (CFR) 70.10. This activity is already current practice.

CDC also requests continued approval to use the Passenger Locator Form (PLF) for the collection of traveler information from individuals on domestic flights and international flights under 42 CFR 70.10 and 42 CFR 71.20, respectively. The PLF, a form developed by the International Civil Aviation Organization (ICAO) in concert with its international member states and other aviation organizations, is used when there is a confirmation or strong suspicion that an individual(s) aboard a flight is infected with or exposed to a communicable disease that is a threat to co-travelers, and CDC is made aware of the individual(s) prior to arrival in the United States. This prior awareness can provide CDC with an opportunity to collect traveler contact information directly from the traveler prior to departure from the arrival airport.

CDC estimates that for each set of airline and traveler information ordered, airlines require approximately six hours to review the order, search their records, and send those records to CDC. CDC anticipates that travelers will need approximately five minutes to complete the PLF. There is no cost to

respondents other than their time perform these actions. For manifest information, CDC does not have a specified format for these submissions, only that it is one acceptable to both CDC and the respondent. The total number of hours requested as part of this 225,734.

Estimated Annualized Burden Hours

Type of Respondent	Form Name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Airline Medical Officer or Equivalent/ Computer and Information Systems Manager	Domestic TB Manifest Template or Informal Manifest Request	2	1	360/60
Airline Medical Officer or Equivalent/ Computer and Information Systems Manager	Domestic Non-TB Manifest Template or Informal Manifest Request	98	1	360/60
Traveler	Public Health Passenger Locator Form: outbreak of public health significance* (international flights)	2,700,000	1	5/60

Traveler	Public Health Passenger Locator Form: limited onboard exposure [†] (international flights	800	1	5/60
Traveler	Public Health Passenger Locator Form (domestic flights)	800	1	5/60
